## SKILLS

Wordpress Development

Hypertext Preprocessor

Markup Languages

Writing

Graphics Designing

## PROFILE

I am a web developer whose proficiency is in content management systems such as Wordpress, Xenforo, and the likes, I also have a good mastery of base php, and the necessary markup languages such as HTML, XML, XHTML, CSS.

Aside from being a developer, I've been a content writer, still actively writing, and I am a graphical designer, who majors in minimalist logo designs.

## EXPERIENCE

**Content Developer (Interned) | Ctech Trek (Now defunct) 2017.**

- Managed content creation for events and web/app based projects.

**Speaker | Atlassian**

Feb 2018 - Till date.

- I speak at Atlassian tech events for students and youths in general, focusing on providing insights on starting out in the tech field.

**Designer | Freelance.**

2017 - Till date.

- Helping startups and established brands alike scale up their businesses with better graphical representation of their entity. Mostly through logomarks, and other brand identity essentials. Samples are on the website link attached to this submission.

Not open to one-time projects only, I do long-term too, e.g. I've been in charge of website and on-site graphics used by the hair brand Made By Somi ([www.madebysomi.com](http://www.madebysomi.com)) since 2020.

**Tools: Adobe's Photoshop and Illustrator.**

**Web developer | Freelance.**

2015 - Till date.

- Started working with codes in 2011, started freelancing with it since 2015 and I haven't stopped since.
